Trial Advocacy Basics - Molly Townes O’Brien 2016-09-16 Surely one of the most intimidating moments in your professional life is standing before a judge and jurors the morning of your very first trial. This is no mock trial:
Advocacy Basics is a courtroom primer that helps both the novice advocate prepare for his first day in court and the practicing lawyer bring her skills in line with the most recent developments in trial advocacy. In the Second Edition of this law school classic, Molly Townes O’Brien and Gary Gildin provide the modern perspectives on both the style and substance of case analysis, case theory, cross-examination, impeachment, closing arguments, and presenting information using technologies. They break down the importance of finding a single factual story of the case, then explain how each aspect of the trial must contribute to that story. O’Brien and Gildin relate practical advice on every stage of trial preparation and practice in a straightforward manner, using memorable examples and anecdotes, colorful quotes, and humor to highlight each lesson.

The small states of the world differ considerably in their geography, history, political structures, legal systems and wealth. Nevertheless, because of their size, small states face a set of common challenges including vulnerability to external economic impacts such as changing trade regimes and limited ability to diversify economic
activity; limited public and private sector capacity, including the legal and judicial infrastructure; a need for regional co-operation; a vulnerability to environmental changes as well as a limited ability to engage with supranational bodies and the forces of globalisation. This is the first volume of an exciting and unique new series, The World of Small States. In this work, legal experts from small jurisdictions and those with a particular interest in legal issues facing small states explore inter alia ethics in small jurisdictions, legal education and the profession in small states, the challenges facing small states with mixed legal systems, the constitutional arrangements in small states, small states as tax havens, and intellectual property and competition law issues.
